

Life Sciences in Tuscany

Product development and R&D pipelines

Check out the business side
of an Italian much-loved holiday
destination, today a hotbed
for life sciences.

Tuscany is well known worldwide for its extraordinary natural beauty and historical heritage. However, it is also one of the most developed regions in **Italy** for technology and innovation in the life sciences sector - a dynamic and lively hub where private and public knowledge and competence are successfully united and compete in international markets.

A well structured regional support system is in place to facilitate life science companies and investors who are willing to locate their business in **Tuscany** - a perfect entry point to the Italian and European market.

The **Tuscany Life Science Cluster** is the regional organization in charge of stimulating the growth of competitiveness and the generation of new business opportunities for regional life sciences (both private and public operators). It supports its affiliates in networking and the building of business relationships, in the development and integration of skills and technologies and in product and process innovation.

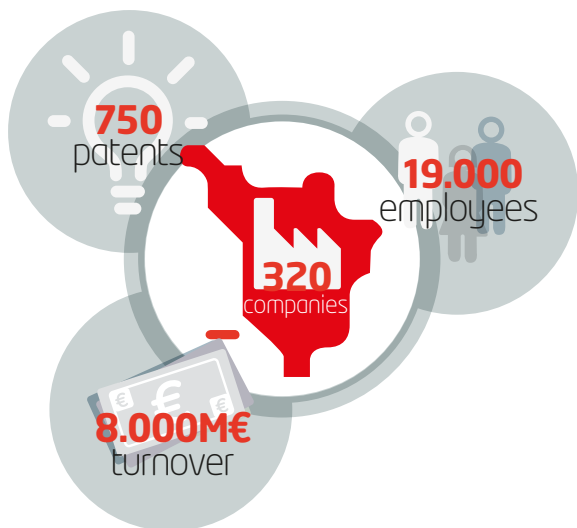

The Economic Promotion Agency **Toscana Promozione** is a concrete platform for overseas enterprises interested in doing business in or with Tuscany.

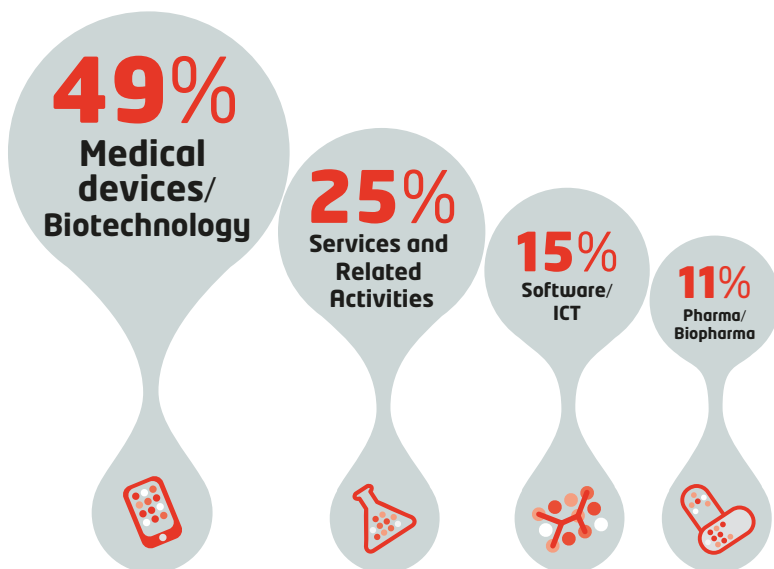

Running the project **Invest in Tuscany**, the agency assists investors interested in locating or investing in our region by providing comprehensive support and information. Our service is free of charge and strictly confidential.

Life Sciences Companies in **Tuscany** at a glance

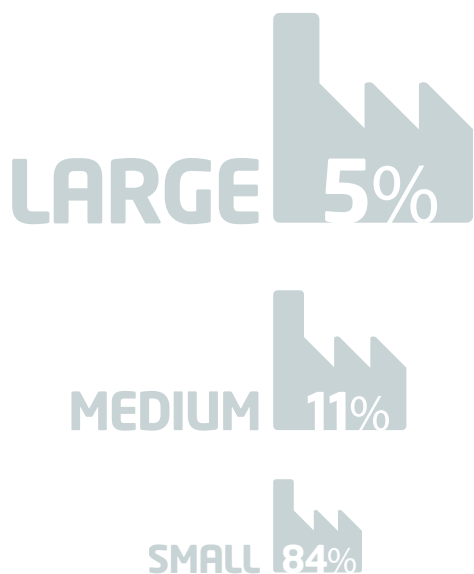

Companies **overview**

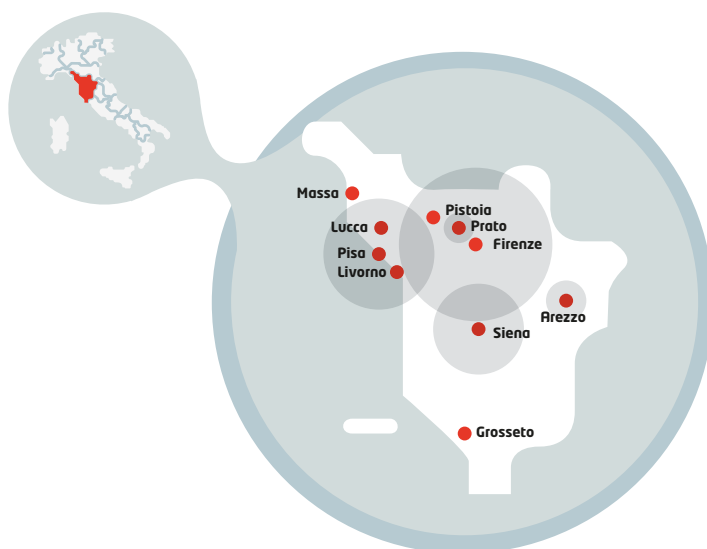

Companies per **sector**

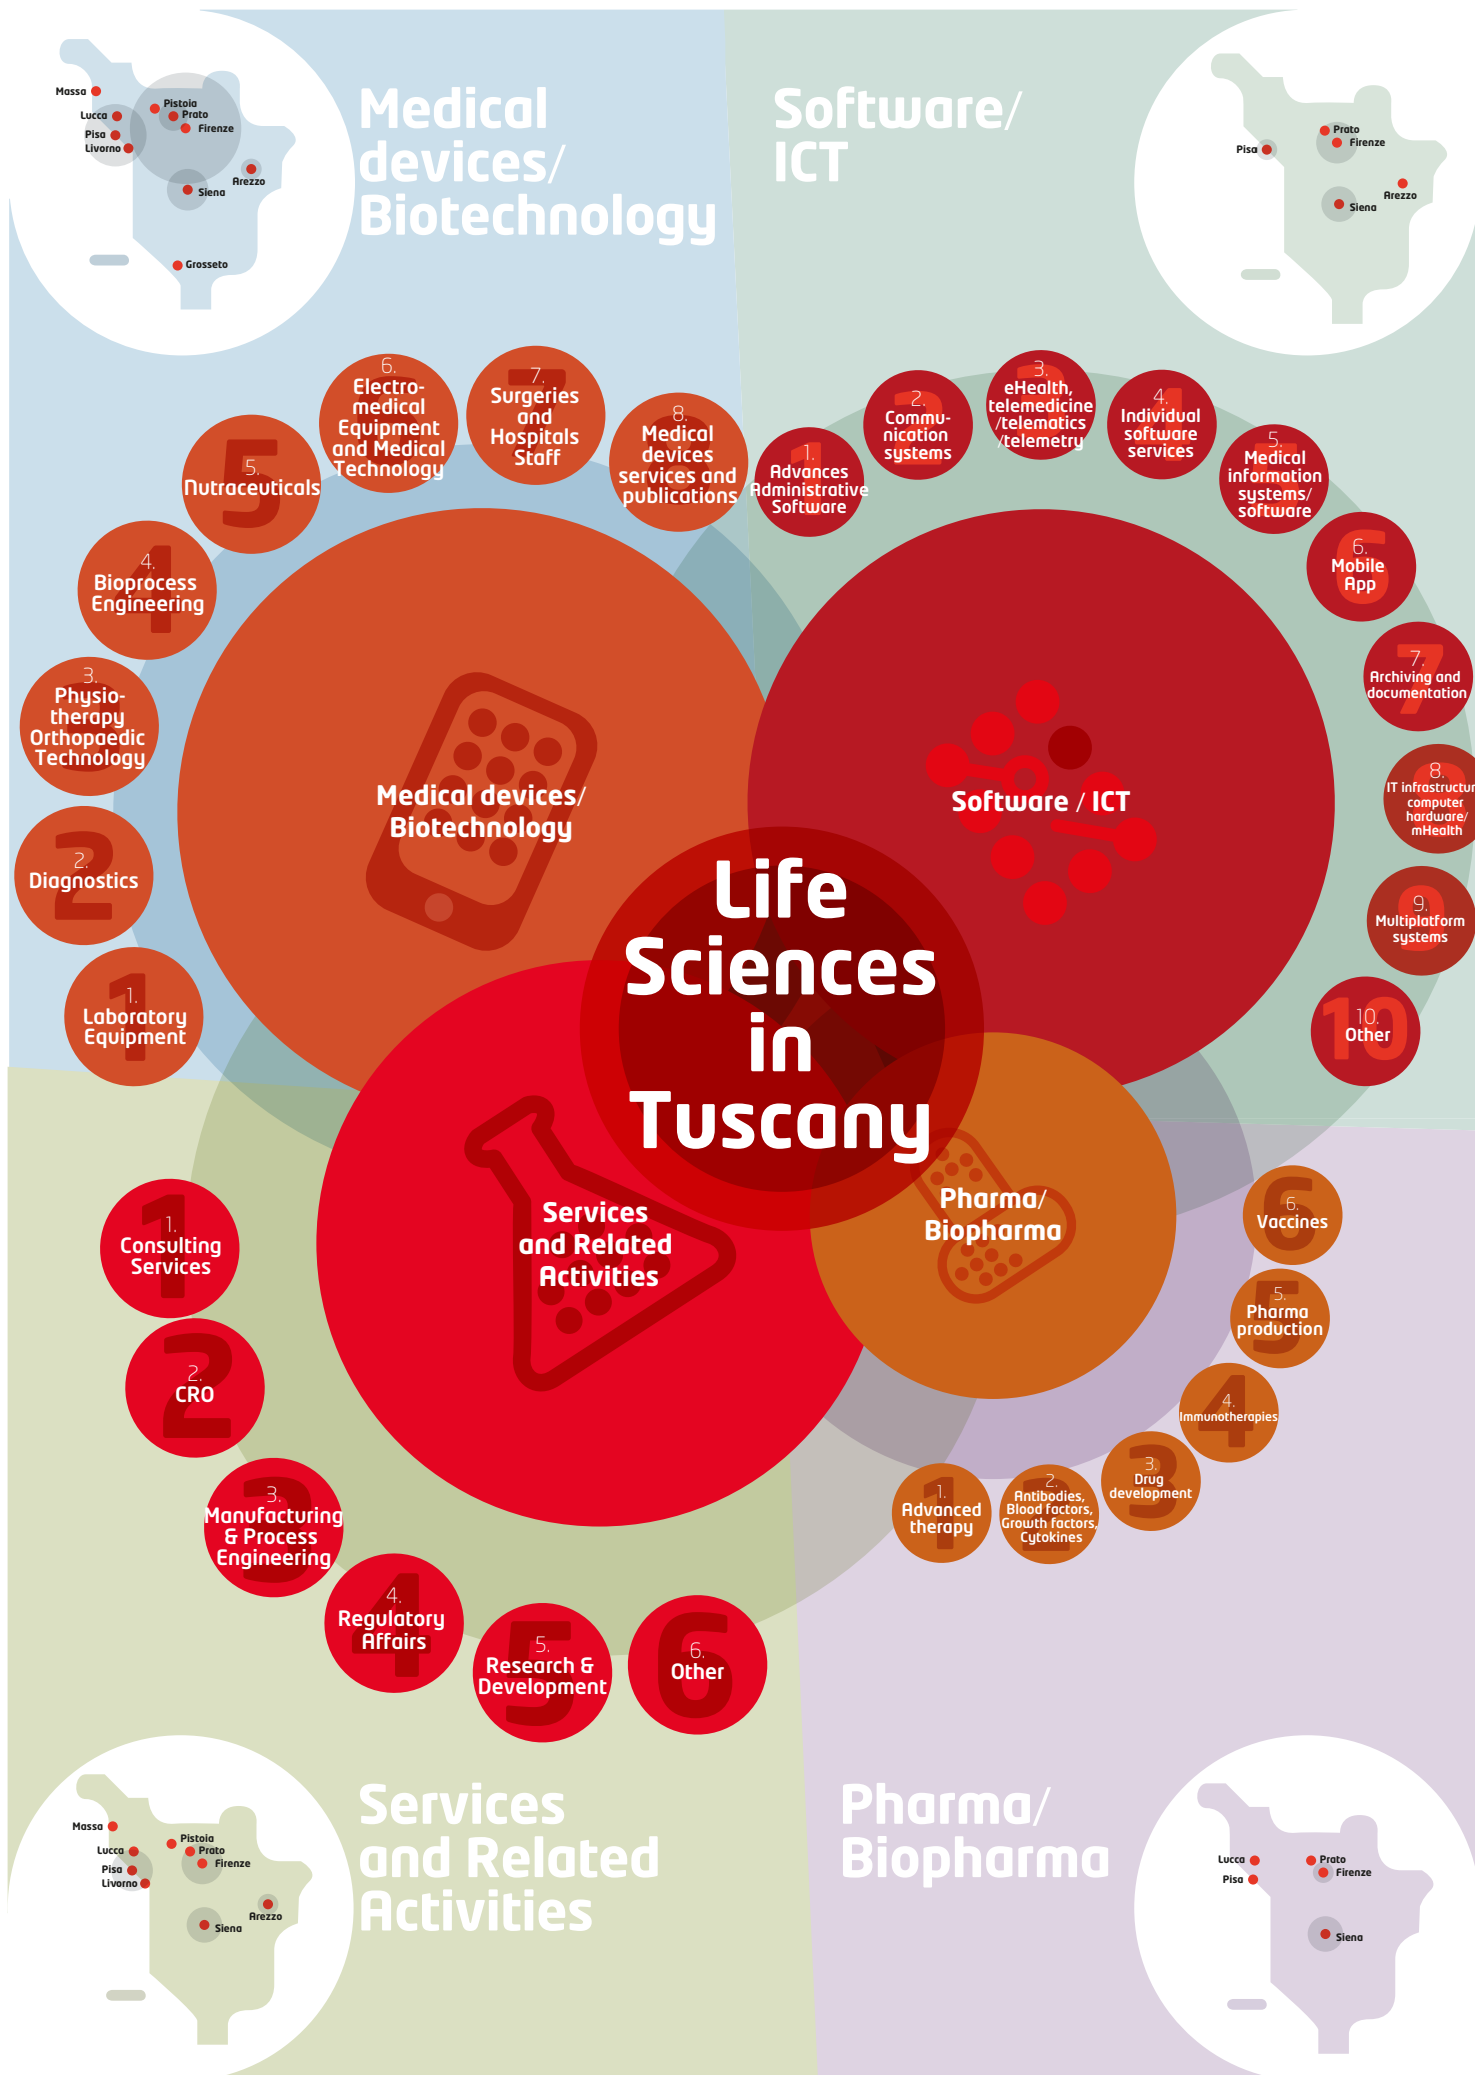

Companies per **size**

Companies per **province**

1. Laboratory Equipment**Bioclass****Ivtech** - Laboratory items.**Linari Engineering** - Pumps and valves for laboratories, Incubators.**N.T. LABORATORY****Nikon Instruments** - Automatic dyeing units, Incubators, Laboratories microscopes, Microtomes.**VISIA IMAGING** - Laboratory equipment.**2. Diagnostics****2.1 Microbiology****A&B Professional** - Rapid tests - Microbiology.**bioMerieux Italia** - Bacteriology - Identification and susceptibility testing.**Biomolecular Diagnostics** - Bacteriology.**DIESSE ricerche** - Bacteriology - Identification and susceptibility testing.**Genedia****MICROBIOTEC****Plasma diagnostics and technologies** - Rapid tests - Microbiology.**2.2 Infectious Immunology****A&B Professional** - Rapid tests - Infectious immunology, Parasitology (Infection immunology).**DIESSE Diagnostica Senese** - Bacteriology - Infectious immunology.**DIESSE Ricerche** - Bacteriology - Infectious immunology.**Sclavo diagnostics international** - Rapid tests - Infectious immunology.**2.3 Immunochemistry Immunology****A. Menarini Diagnostics** - Immuno assay systems.**A&B Professional** - Drugs of abuse/Toxicology, Fertility/Pregnancy hormones/Proteins, Rapid tests - Immunochemistry.**bioMerieux Italia** - Immuno assay systems.**DI.V.A.L. TOSCANA** - Tumour markers.**DIESSE Diagnostica Senese** - Auto-immune diseases.**DIESSE Ricerche** - Auto-immune diseases.**Exosomics Siena** - Tumour markers, Therapeutic drug monitoring, Immuno assay systems.**Externautics** - Tumour markers.**Sclavo diagnostics international** - Specific proteins.**SEAC** - Immuno assay systems.**Toscana Biomarkers** - Auto-immune diseases.**VISIA IMAGING** - Auto-immune diseases.**2.4 Clinical chemistry****A. Menarini Diagnostics** - Devices and systems for glucose determination units, Devices and systems for haemoglobin determination, Equipment and systems for urinary diagnosis, Self Testing Devices, Units and systems for clinical chemical determination.**A&B Professional** - Rapid tests - clinical chemistry.**Biomolecular Diagnostics** - Gene tests /molecular biological diagnostic.**Diacron Labs****Gentras** - DNA diagnosis kits - Gene tests/ molecular biological diagnostic.**Hospitex Diagnostics** - DNA diagnosis kits, Units and systems for clinical chemical determination.**NEXT GENOMICS****Polymed****Sclavo Diagnostics International****Sebia Italia** - Electrophoresis equipment**Semar** - Units and systems for clinical chemical determination.**Sorta** - Enzymes.**2.5 Haematology Histology Cytology****A. Menarini Diagnostics** - Haematology cell counters.**A&B Professional** - Immunohaematology (Blood grouping), Devices and systems for coagulation analysis.**Diacron Labs****DIESSE Diagnostica Senese** - Equipment and systems for blood sedimentation.**Hospitex Diagnostics** - Devices and systems for coagulation analysis, Haematology cell counters.**Semar** - Differential cell counters.**2.6 Other****Colorobbia****Diacron International****EONTYCH****3. Physiotherapy****Orthopaedic Technology****EASYTECH****Humanware** - Rehabilitation equipment and devices, Physiotherapeutic mobility aids.**Let People Move****Moretti** - Walking and mobility aids, Wheelchairs.**REHA Istituto Ortopedico** - Physiotherapeutic mobility aids, Transport vehicles for those with handicaps, Wheelchairs, Rehabilitation equipment and devices.**Scienza Machinale** - Walking and mobility aids.**Signo Motus** - Rehabilitation equipment and devices.**4. Bioprocess Engineering****Biospire** - Photo bioreactors.**Kayser Italia** - Micro reactors, Reactor systems for mammalian cell cultures, Reactors for biomedical applications.**Linari Engineering** - Micro reactors, Reactors for biomedical applications.**5. Nutraceuticals****Aboca****Alesco****Medibase****Oftalpharma****PHARMANUTRA****Solo Sale****Steve Jones****6. Electromedical Equipment and Medical Technology****6.1 Diagnostic Equipment****Actis - Active Sensors** - Microscopes**bioMerieux Italia****Bionen** - Electroencephalographs (EEG), Apparatus for sleep studies, Myography equipment, Electromedical instruments and instruments for neurological diagnosis**Diacron International****EB Neuro** - Myography equipment, Electroencephalographs (EEG), Electrocardiography (ECG) equipment and accessories.**El.En. Group****Farmigea****I+****Moretti** - Electrocardiography (ECG) equipment and accessories, Blood pressure equipment.**Nicrem** - Apparatus for sleep studies.**Santec****Visia imaging** - Instruments and apparatus for ocular diagnosis.**Win Medical****6.2 Equipment and Furniture****DRIVE AIR** - Modular systems.**Mattioli engineering Italia****6.3 Therapy and physiotherapy****EB Neuro** - Stimulation equipment for diagnostics/therapy.**El.En. Group****DEKA M.E.L.A.****General Project** - Laser therapy equipment.**Linari Engineering** - Stimulation equipment for diagnostics/therapy.**6.4 Sterilisation****EgoHealth** - Sterilisation and disinfection equipment and accessories/ autoclaves.**6.5 Emergency Medicine and Rescue Equipment****Emergency Solutions** - Furnishing/ Equipment for mobile medical treatment rooms and vehicles, Emergency Room Equipment, Rescue equipment and appliances.**6.6 Operating tech and equipment****I+** - Surgery Room Equipment.**6.7 Surgery and Endoscopy****E-SPRES3D** - Surgical instruments and products.**Era Endoscopy** - Endoscopes and accessories.**I+** - Surgical instruments and products.**6.8 Imaging processes****Esaote** - Ultrasound diagnostic equipment.**Eye-Tech****InSono****Italray** - X-ray devices and accessories.**QUIPU****Santec** - Ultrasound diagnostic equipment.**6.9 Hospital and Care Equipment****Moretti** - Medical supply units complete mobile units such as in catastrophe areas or for military use.**NICREM** - Equipment and apparatus for wards and examinations, Furnishing /Equipment for examination and treatment rooms, intensive care units and wake up rooms.**6.10 Therapeutic equipments****Elesta** - Diagnostic equipments.**7. Surgeries and Hospitals Staff****Baxter****EKYMED****ESAFARMA** - Bandage materials.**Molteni Therapeutics****MON&TEX****PRONTOPHARMA-EUROPE****Santec****8. Medical devices services and publications****NOXAMET****QUALIMEDLAB** - Technical equipment management, Test Houses/Certification Bodies.

Software/
ICT**1. Advances Administrative Software**
